

Dear FCC:

I am writing to support the State of New Jersey's Do Not Call legislation. As a New Jersey resident, this legislation has resulted in a significant drop in unwanted and harrassing telephone calls from telemarketers.

I understand that the federal government will soon decide if New Jersey can keep the nation's strongest Do Not Call list. Our state's ability to ensure adequate consumer protection should not be negated.

Millions of New Jerseyans have already signed up for the Do Not Call Program.

Please help protect my rights by not weakening my state's ability to legislate consumer protection regulations.

Carlos Perez, Jr.
